CONSPIRACY IS CLAIMED

Startling Evidence in Land Suit.

Atty-Gen. Wickham Says Southern Pacific Officials Are Involved.

Upon being placed on the stand, the statement continues, Mr. Eberlein produced correspondence between himself and the late W. D. Cornish, vice-president of the Southern Pacific, fully establishing previous knowledge on the part of the railroad officials of the mineral character of the land selected, and indicating an intention to keep the fact from the government officials, "until after patents should be secured."

Eberlein was charged with making a false affidavit in furtherance of the alleged conspiracy, at the time he was acting as land agent for the Southern Pacific. In testimony given at Los Angeles, on May 15, he swore that he was unacquainted with the true nature of the lands at the time he accepted his duties and lent his name to the affidavit on the strength of assurances he assumed to be beyond question, given him by officers of the company.

Later his suspicions were aroused and he refused to sign a lease now in the possession of the government between the Southern Pacific and the Kern Trading and Oil Company. This lease, the government will seek to prove, shows that the Kern Oil Company was merely a dummy for the railroad, although the railroad in its answer to the government's original complaint swore it was a bona fide oil company.

The lease is signed by W. H. Markham, then vice-president and general manager of the Southern Pacific, as president of the Kern Trading and Oil Company; by W. F. Herrin, chief counsel and political adviser of the Southern Pacific; and by E. T. Dumbell, consulting geologist.

ROOSEVELT BEATS TAFT

IN NEW JERSEY ELECTION.

Wins Four Delegates-at-Large and at Least Ten of the District Delegations.

President's Supporters Concede His Defeat in State. Indications Point to Even More Chicago Votes for the Third-term and He May Have Carried the Entire Commonwealth—Gov. Wilson Overwhelms Opponents.

NEWARK (N. J.) May 28.—Theodore Roosevelt's victory in the New Jersey primary election is conceded by the leaders of the State Taft organization.

Shortly after midnight E. W. Gray, secretary of the Taft Business Men's League, said Col. Roosevelt probably had won the four delegates-at-large and also the ten district delegates from the counties of Essex and Hudson, which comprise Newark, Jersey City, and Hoboken, besides several populous suburban towns.

Indications at 1 a.m. based on scattered returns from all parts of the State, were that Col. Roosevelt would carry three, or four other districts and capture at least twenty-two of the twenty-eight delegates this State will send to the Republican National Convention. At that time President Taft appeared to be sure of only one of the twelve districts, with a fighting chance of two more.

Woodrow Wilson's opponents had to be satisfied with the strong showing made in Essex county, the stronghold of former Senator James Smith, Jr., and former Democratic State Committeeman James R. Nugent.

Indications at 1 a.m. were that Wilson delegates had been elected for the State at large and in all but two of the districts. The Newark Star, which is owned by former Senator Smith, conceded Gov. Wilson's success last night, but said the opposition probably would elect six district delegates in Essex and Hudson counties.

Any delegates elected not pledged to Gov. Wilson will go to the convention uncommitted.

The official count in the 1908 election of delegates to the State accumulated slowly. The 315 districts that reported first on the votes for delegates-at-large gave no indication of the actual result of the primaries. The figures on delegates at large, little more than a sixth of the total, were: Taft, 2320; Roosevelt, 10,150; La Follette, 315.

Figures on the Presidential preference vote were practically the same. Taft, 12,000; Roosevelt, 12,000; La Follette, 315.

He declared that the Sixth Congressional District was the only one about which he had any doubt, and he felt practically certain that this also would go to Roosevelt.

POLLS KEEP OPEN FOR COMMUTERS' BENEFIT.

NEW YORK, May 28.—The early returns came from Newark and Cape May county, at almost opposite extremes of the State, and the few voting districts which had finished their count at four, gave Theodore Roosevelt a slight lead on the Republican side.

Early returns from Cape May, one of the four sparsely settled counties comprising the Second Congressional District, indicated a majority of 500 for Roosevelt over Taft.

At the same time, E. W. Gray, secretary of the Taft Business Men's League, notified the Taft bureau in Washington that the President had carried Newark by a safe majority. He based this claim on the first eighteen Newark districts to report which gave on the Presidential preference vote 512 for Taft and 466 for Roosevelt.

First returns from the southern part of the State gave the Wilson delegates a vote of nearly 10 to 1 over the uncommitted delegates running against them. In Essex county, the stronghold of the Wilson opposition, the first thirty districts to report gave the uncommitted delegates a vote of 1144 to 762 for the Wilson men.

Largely for the benefit of the army of commuters, which probably number more in New Jersey than in any other State in the Union, the polls remained open until 9 o'clock tonight and the count was correspondingly late. Though the polls were open at 1 p.m. in the commuting district, the greater part of the vote was done in the evening and four-fifths of the ballots poured in between 5 and 9 p.m.

Under the New Jersey law, twenty-eight delegates to the Republican and Democratic national conventions were chosen, two delegates in each of the twelve congressional districts and four delegates at large, the latter being elected by the vote of the whole State. The voters also had the privilege of expressing their preference for Presidential candidates although this result had no effect upon the division of delegates.

The ballots were easy to mark, the delegates expiring in 1912, little coupled with the names of the Presidential candidates they are pledged to support.

The New Jersey election was the last to be preceded by a campaign by all the Republican Presidential candidates. Its importance was emphasized also because only one more State, South Dakota, remains to hold primaries before the national convention.

Interest in the Republican returns was widely distributed, but early attention to the Democratic returns focused upon this city, where the Smith-Nugent wing of the party made its sharpest fight against Gov. Wilson. Some of the Wilson leaders admitted that this stronghold of the opposition might go against them and early returns seemed to uphold their fears.

Under the rules of the Republican National Committee the time limit for the election of national delegates expired thirty days before the convention, and before the results of the Republican primaries in New Jersey today can be ratified, the rule must be suspended. Thus far there has been no sign that any of the candidates would take advantage of this situation to contest the results of today's election.

JOHN D. POUNDS TABLE AND SHOUTS IN COURT.

Oil King Grilled by Lawyer, But Sticks to Refusal to Answer Questions Except in His Own Way—Dissolution of Standard Branded as "Farical" by Waters-Pierce Interests.

NEW YORK, May 28.—John D. Rockefeller, retired head of the dissolved Standard Oil Company, was placed on the witness stand here to tell whether he believed the company had been really dissolved under the decree of the United States Supreme Court.

Mr. Rockefeller appeared as a witness in the action brought nominally by Missouri to compel the inspectors of the election of the stockholders of the Waters-Pierce Oil Company at St. Louis last February to vote the proxies of the Rock and other Standard Oil interests, which had named Standard Oil men as officers of the company.

The inspectors refused on the ground that to do so would violate the dissolution decree of the Supreme Court of the United States, and the decision of the Missouri Supreme Court, quashing the Standard Oil Company of Indiana from the former State. The Waters-Pierce interests alleged, in fighting to prevent the Standard Oil representatives from the St. Louis trial, that the Standard Oil interests had observed the decree of the United States court was "farical."

Mr. Rockefeller was subjected to a grilling by Samuel Untermyer, counsel for the Waters-Pierce interests, that caused the witness to pound his fist on the table to emphasize his indignance at the details of pointed questions as to whether the decree of the court had been in fact carried out.

"Did you ever have a discussion with John D. Archibald as to how three subsidiaries should be run and still be held tight?" queried the Waters-Pierce attorney.

There never was any thought of cutting loose and holding tight," Mr. Rockefeller almost shouted.

Mr. Rockefeller persisted in giving his own answers in his own way, nor could he be induced to change his tactics to suit.

EFFORT IS HOPELESS.

Finding the effort hopeless, the examining attorney remarked that if the witness were asked if the company was shining outside Mr. Rockefeller would not give a direct answer. He would say instead that the moon was about to rise.

Mr. Untermyer drove hard at Mr. Rockefeller to get him to explain the standard oil company and how it was that the "old company" named

[Special by Federal Wireless Telegraph Line.]

BOSTON, May 28.—Capt. Stanley Lord, who went to his berth on the Leyland liner Californian, while the Titanic was firing distress rockets, four miles away, has been relieved of his command. The Californian, which is expected to arrive here tomorrow from Liverpool, is now in charge of Capt. Masters, whose father was for many years captain of the Leyland liner Columbian, of the Boston London service.

Although the Californian sailed from Liverpool May 15, the fact that Capt. Lord had been relieved did not become known until today, after the committee of the United States Senate which investigated the Titanic disaster filed its report.

At Newkirk, Percy Neaby was struck on the head by a large hail, and a horse and wagon were killed. The rain and hail demolished a church and the railroad station at Peckham.

TWO DELEGATES WILL CONTEST.

Taft Men to Fight for Part of California Votes.

Will Appear Before Contest Committee in Chicago.

Action Is Based on Republican Convention Rule.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SAN FRANCISCO, May 28.—It was announced definitely at the Taft headquarters here today that challenge would be made before the Republican national convention at Chicago of Roosevelt's claim to two of the twenty-six California votes in the national convention.
The two Taft delegates, who were elected in the Fourth District, one of the San Francisco districts, are Morris Meyerfield, Jr., and E. H. Tyrone. S. Fred Hogue of San Francisco will appear before the Contest Committee at Chicago June 4 in their contest for seats, basing his claims on the following convention rule of the Republican party:
"In no State shall an election be so held as to prevent the delegates from any Congressional district and their alternates being selected by the Republican electors of that district." The California law provides that all delegates, including those at large, shall be elected by the party electors of the State at large, and conforms with the national convention rules in that it provides that district delegates must be selected, or nominated from the districts which they are to represent in the convention. Taft supporters declare that the clash between the primary law and the convention rules should be determined by the latter, since the rules were made two weeks before the law was enacted by the California Legislature.

BOSTON, May 28.—Using dynamite caps in a tobacco box for a rattle, little Edmund Dickey, 4 years old, was so severely injured by the explosion which resulted that he died within an hour's time after being taken to the hospital.
The strange looking caps were found on the shelf when the family moved into their present home in East Cambridge three weeks ago, and were given to the child for playthings. The police are searching for the man who left the caps lying about.

Methodist Episcopal Conference Adjournment Is Near and Delegates Start for Homes.

(BY A. P. NIGHT WIRE TO THE TIMES.)
MINNEAPOLIS, May 28.—With adjournment of the general conference of the Methodist Episcopal Church twenty-four hours away, many delegates already have departed, and before tonight's session was closed there were not many more than a quorum for the transaction of business.
Bishop John Nuelson was excused, as he must sail next week for his new residence in Zurich, Switzerland, in order to hold conferences on the continent, which are scheduled for the present spring and summer. Many of the delegates, some of whom have been away from home for three months, are anxious to leave.

KAISER BUYING HATS FOR WIFE CALLED GOOD OMEN.

(SPECIAL BY FEDERAL WIRELESS TELEGRAPH LINE.)

PARIS, May 28.—Despatches from Berlin announce that the Kaiser chooses his wife's hats, and the Temps, a leading conservative newspaper, sees therein a favorable sign of the peace of Europe.
"This interesting feature of the Kaiser's private life," it comments, "is perhaps of historical and political significance, following the sensational debates in the Reichstag, where the Socialists somewhat maligned the sovereign, though unable to prevent the voting of enormous credits for the augmentation of armaments. An Emperor who goes to a milliner's to view to presiding personally over the

selection of several hats for the Empress, and the purchase of a new hat, is evidently a sign of peace. The Kaiser's choice of hats is not likely to disturb the peace of Europe.
"A monarch who amuses himself so politely in the bosom of his family seems to promise the people tranquility and peace," it continues, "example, which, however, has small chance of being followed. One sees that the Kaiser is a man of peace, but the Kaiser's will is the supreme law, otherwise he would not dare to mingle in such thorny questions as the choice of a woman's hat."

BAPTISTS URGE PRESIDENT TO BAR SECTARIAN GARB.

(BY A. P. NIGHT WIRE TO THE TIMES.)

DES MOINES (Ia.) May 28.—The Rev. Carter Helm Jones of Oklahoma City was elected president of the Northern Baptist Foreign Mission Society at the Northern Baptist Convention tonight. Other officers elected were:

First vice-president, I. W. Carpenter, Omaha; second vice-president, Andrew MacLeish, Chicago; third vice-president, Rev. W. B. Hanson, Portland, Ore.; recording secretary, George B. Huntington, Newton, Mass.; foreign secretary, Rev. J. H. Franklin, Colorado Springs, Colo.; home secretary, Rev. Fred P. Hagman, Boston; treasurer, Ernest S. N. Butler, Boston.

President Taft and Secretary Fisher of the Interior Department are urged to restore and enforce Commissioner Valentine's order No. 461, which forbids sectarian instruction and the use of sectarian garb and insignia by teachers in government schools for the Indians, in resolutions adopted today by the Northern Baptist Convention.

GREAT SUCCESS ATTENDS ORGANIZATION IN ARIZONA.

BY DELL M. POTTER.

(BY DIRECT WIRE TO THE TIMES.)

SPRINGVILLE (Ariz.) May 28.—[Exclusive Dispatch.] We are having a great success as the immediate result of our organizing trip through Arizona.

Organization work was today completed for Arizona at Springville. As we go into New Mexico, we will leave ten thousand members of the Ocean-to-Ocean Highway Association in Arizona.

We are explaining to the people that the Los Angeles Times is furnishing the organization car complete with Bert C. Smith as reporter, and paying the expenses; that The Times is doing this to advance the interest of good roads in general, and in particular the national highway endorsed by the Ocean-to-Ocean Highway Association and the National Old Trail Road Association.

There is the greatest enthusiasm. We owe The Times full praise for being the pioneers in offering assistance to this great movement when we are in such great need. As vice-president of the Ocean-to-Ocean Highway Association for Arizona I assure you that the people thank you from the bottom of their hearts.

the directors and officers of the segregated constituent companies. After declaring that he had given the reorganization of these companies no attention, and that he had turned his Waters-Pierce holdings over to "the gentlemen in charge of the reorganization," because "they knew best what to do," Mr. Rockefeller, who had been talking in a gentle, well-modulated voice, was asked the question as to whether he had discussed a plan to "cut loose and hold tight." It was here that he brought his flat down on the table to emphasize his indignant denial.

"Is there, Mr. Rockefeller, so far as you know, any plan for the management of these constituent companies? Have you been acquainted with anything else than that there was a plan that these companies each should fulfill its own functions?" "I have never been made acquainted with anything else than that there was a plan that these companies each should fulfill its own functions."

CROWD HEARS OIL KING.
The fact that "The Standard Oil King" was to testify attracted a large crowd to the building at No. 27 Wall street, where the hearing of today of a bond held in the offices of Samuel Undermyer, attorney for the Waters-Pierce company, was held.

"Where do you live, Mr. Rockefeller?" was the first question of Mr. Undermyer.
"Pocantico Hill is my present residence."
"Do you remember executing a proxy for Waters-Pierce Oil Company stock?"
"I do."
"Who presented you the proxy?"
"My secretary."
"Did he tell you what he wanted the proxies for?"
"He did not," Mr. Rockefeller explained that he signed proxies almost every day, as sent from his office and that he frequently a contest over proxies?"
"Yes."
"How do you determine for which party you should sign?"
"I have never found proxies sent from my office that were not right for me to sign. There has never been any difficulty with them. I sign the proxies as a matter of routine," he answered.

"They have a certain discretion in the office and as to what they shall sign, they have it," he continued.
"They have been in my office for twenty or thirty years and they know my investments and my affairs," he said.
"Have they invested in them any discretion?"
"I do not know that that question has ever come up," said the witness.
"How much discretion I don't know. We have never been caught on a side of proxies."
"What do you mean by being caught?"
"You mean you never have signed any against your interest?"
"Yes."
After his personal counsel, George W. Murray, had spoken of a note to him in a low voice, Mr. Rockefeller said he knew M. Van Buren and Walter F. Taylor, to whom the proxies were made up. He then identified one of the Waters-Pierce proxies which he had signed.
"Is there anything on the face of that proxy to indicate how you are voting?"
"There is one of many proxies," he said.
"You are not answering the question," interrupted Mr. Undermyer.
"I signed this proxy because it

may here all night, we will, because I am going to have my question answered."

"I didn't make any calculation. I made no study at all. I knew merely that the aggregate of these outside holdings was in the neighborhood of seventy per cent."
"That doesn't answer my question. Did you know that the holdings of these men in charge of the Standard Oil reorganization, added to yours, made a majority of the Waters-Pierce stock?" repeated Mr. Undermyer.
"I never made a computation," said Mr. Rockefeller.
"You'll answer this question before we get through," threatened Mr. Undermyer. "I submit that I am not getting proper answers to these questions. I am unable to get a categorical answer to a single one. But I am going to have an answer if I have to stay here all night," he reiterated.
"It is not intentional. I am trying to answer the best I can," said Mr. Rockefeller.

Disaster at Moving Picture Show in Spanish Village Spared Only a Few in Audience.

(BY A. P. NIGHT WIRE TO THE TIMES.)
CASTELLON DE LA PLANA (Spain) May 28.—The cinematograph explosion which last evening caused the death of eighty persons in a moving-picture theater in the little city of Villareal, was even more terrible than first reported.

The picture machine, which was in the vicinity of the stage, was struck by a small fire which was only one opening, used both as entrance and exit. The picture machine, which was manipulated at one side of the door. The film took fire in an unexplained manner. A tongue of flame shot out into the hall, in which were seated about 180 people. There was a mad rush to the exit, which soon became choked with shrieking men, women and children.
The whole building was soon in flames and the panic increased momentarily, rendering difficult the organization of relief from the outside.

LONGWORTH FOR GOVERNOR.

Politicians in Cincinnati Hear Rumors of Movement to Compromise on Congressmen.

(Special by Federal Wireless Telegraph Line.)
CINCINNATI, May 28.—Politicians of this city heard today of a bond for Congressman Nick Longworth for the Republican nomination for Governor. The alleged bond was started up State.

He is figured, so it said here, as a good compromise candidate. It is intimated that under present conditions things will not be very agreeable for Mr. Longworth in a social way in Washington, in view of the open break between Col. Roosevelt, his father-in-law, and his great friend, President Taft.

JUSTIFIED IN MOVE ON CUBA, SAY OFFICIALS.

Reports from Many Sources to the State Department Show Justification of United States' Action—Rebels Threaten to Levy Tribute—Gomez's Forces Can Preserve Peace.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, May 28.—The State Department today took the precautionary step of protecting American and other foreign interests in Cuba. The move was justified, in the judgment of the State Department, based upon the reports that have been received from many sources, and especially from owners of plantations and sugar mills and iron mines and other industries.

Up to the present it is declared there has been no destruction of valuable property. One fact vindicating the State Department's action in asking for naval protection of the American interests is the threatening attitude of the rebels. According to information, apparently reliable, the insurgents are becoming desperate. Gomez, their leader, declares that if President Gomez does not procure the repeal of the Morúa law, prohibiting the organization of a strictly negro party in Cuba, he and the other leaders will demand contributions from the railroads and from the owners of estates, to prolong the conflict, and will destroy the property of those who refuse. In the meantime, bands of negroes in the unprotected sections of the Guantanamo district continue to steal horses and pillage small stores.

The State Department hopes that immediate and energetic measures by the Cuban government will suffice to quell the revolt. As the idea has been broached that the rebels are contemplating making an easy evacuation from Cuba to other West Indian islands in the event they are too closely pressed by government troops, it is proposed by some of the naval officers here, if they are called upon to take an active part in the troubles, to cut off the retreat of such fugitives by a thorough boat patrol of every inch of the eastern coast of Cuba.

The policy with which two whole divisions of the Atlantic fleet responded to the call for a naval demonstration in the southern waters has not attracted the attention of the rebels. In the opinion of the naval officers here, as a matter of fact, they declare this was probably the speediest and most effective bit of naval maneuvering ever carried out on so large a scale in this or any other country.

As illustrating the efficiency of modern scientific methods of warfare, it is pointed out that the whole movement was directed by two officers in the Navy Department, Admiral Vreeland and Capt. Potts, by long-distance telephone and by electrically operated radio and wire messages.

TO PROTECT FOREIGNERS. The United States is prepared to send marines and bluejackets to the interior of Cuba for the protection of American and foreign interests, where necessary, and where no Cuban forces are available for that purpose, even though President Gomez should object to such a course.

It is emphatically held at the State Department that American and navy officers are expected to take such measures as become necessary to protect American and foreign plantations. No foreign government has yet communicated with the United States on the subject of protection of its interests, and it is understood the government aims to make such action unnecessary.

Cuba was officially notified as early as last Friday that it was the purpose of the United States to concentrate a naval force in Cuban waters. It was not known that the demonstration was not an impulsive movement, but a part of a carefully prepared plan on the part of the United States to restore order in Cuba by moral influence if possible; by intervention, in a political sense, as a last resort.

The question of whether American marines and sailors would be sent to the interior of Cuba to protect American lives and property was answered specifically at the State Department today as follows:

"If a commander of an American force now on the island sees or hears of a Cuban holding his machete over the head of a woman, he is certainly not going to enter negotiations with Cuba and question Washington as to whether he should stop it or not."

SIGNIFICANCE OF PROTEST. Officials here believe President Gomez was perfectly aware of the intentions of the United States even

before he received notice of the approaching rendezvous of the fleet at Key West. President Gomez's public protest is taken here to have been a move calculated to assure the Cuban people that he was not seeking to maintain his administration in power through American influence.

If the Cuban government puts a well-armed force of 8000 men in the field within a day or two, as it is reported it will, the rebel movement should be short-lived. One of the Cuban generals in Oriente estimates the number of armed rebels in the field at between three or four thousand, and that perhaps six or seven thousand unarmed negro revolutionaries remain in the province awaiting developments.

When the cruiser Cuba, which left Havana yesterday, arrives at Santiago with reinforcements, the Cuban government forces in the field will number probably 4000 troops.

So far, according to official advice, the rebels have taken forcibly \$6000 in money, and have destroyed by fire fully \$50,000 worth of sugar cane.

SAVES HER DIAMONDS.

Mrs. James A. Deering Folds Thief on Fifth Avenue When He Tries to Get \$10,000 Necklace.

[Special by Federal Wireless Telegraph Line.]

LOS ANGELES TIMES BUREAU, New York, May 28.—Mrs. James A. Deering, whose marriage to the successful New York lawyer was both a romantic affair and a big event in society, saved her \$10,000 diamond necklace after a desperate encounter with a small thief this afternoon, in the very heart of Fifth avenue, as when traffic was at its height.

Mrs. Deering went to her safety deposit vault to get the beautiful rope of diamonds which Deering gave her as a bridal present. She left the vault with the package tied to her right wrist by a stout cord, arranged by the safe's deposit manager so that it would not show.

A man in gray tweeds, looking like a gentleman in comfortable circumstances, walked along quietly behind her from Sixty-fourth to forty-seventh street. She did not notice him until afterwards. Suddenly she felt a tug at her wrist. The man had tried to snatch the package. The young man held it, faced around and fought him off. She did not lose her head or scream. Just as a passerby saw that a theft was being attempted, the man in gray took to his heels and vanished in the conventional crowd. Mrs. Deering wore her necklace last night.

KNIGHTS FATHER FOR SEE. Stephen H. Bridges Takes Up Fight to Save Master of "Absolute Life" Cult From Prison.

[Special by Federal Wireless Telegraph Line.]

LOS ANGELES TIMES BUREAU, Chicago, May 28.—Mildred Bridges has won her father to the fight to save Evelyn Arthur See from the penitentiary. This statement was made by the young woman herself today.

It means that Stephen H. Bridges will try to prevent See, master of the "Absolute Life" cult, from serving the prison sentence recently imposed by a federal judge in New York. The father, who has been serving the sentence since he was arrested last week, is the bitter enemy of the cult.

The girl, known to the cult as "Mother," said that her father had signed a statement giving his complete approval to the "Absolute Life." Further, she said her father would make an affidavit calculated to have a vital effect on the action of the higher court on See's appeal.

No statement could be obtained from Bridges. Later it was declared he had gone out of the city. All inquiries were referred to his daughter.

BROKEN THROUGH EXPENSIVE. BY A. P. DAY WIRE TO THE TIMES. SIOUX FALLS (S. D.) May 28.—On a judgment for \$25,000, rendered in the United States Court of Appeals, Miss Ella Day of Menominee,

Mich., today received a check for \$28,828.52, which includes interest since the verdict was returned in her favor in the fall of 1910. The suit was against James S. Sanborn of Puckwanna, S. D., for breach of promise. The case was one of the most famous in which actual financial damage was proven. The woman worked as secretary of a lumber concern at Menominee, Mich., at a salary of \$4300 yearly and resigned on Sanborn's promise to marry.

VALUABLE PAINTINGS STOLEN. CHICAGO, May 28.—Five oil paintings valued at \$50,000 have been stolen from the Prairie Avenue home of Mrs. Charles F. Kellogg. The theft did not become generally known until last night when descriptions were nailed to every art collector in the world by a detective bureau. It is the belief of Mrs. Kellogg that the thief was a connoisseur. Paintings of lesser value were left behind.

BEER AT PRAYER MEETING. BY A. P. DAY WIRE TO THE TIMES. KANSAS CITY (Mo.) May 28.—A "prayer meeting" was interrupted in Kansas City, Kan., last night when Robert O'Donnell, captain of police, arrested the "meeting" on the charge of frequenting a "blind tiger." Six negroes and one white man were arrested. The Rev. Henry Thomas said he was a minister detailed to stum work.

INSURANCE CANCELED. BY A. P. DAY WIRE TO THE TIMES. CHICAGO, May 28.—Because of numerous losses by explosions, generally attributed to the "black hand," many insurance companies are said to be canceling policies in Italian centers here and refusing further risks.

The canceling of the policies started after the two-story building of Antonio Morici had been blown up a few days ago, at a \$25,000 loss.

[Special by Federal Wireless Telegraph Line.]

PITTSBURGH (Pa.) May 28.—Never yet has Miss Mary A. Fowles, the noted Pittsburgh and Pinehurst golf player, failed to go clear to the end of a contest on the links, no matter how strong the opposition, but she quit at the half way point in the game of matrimony.

After obtaining a license in Youngstown, O., Miss Fowles and her fiancé, Matthew J. Scannell, have suddenly changed their minds and are no longer to be wed.

"It was just a foolish little stunt," said Miss Fowles, "and I don't really get married, you know, but we are going to do so soon. I cannot tell the date right now, but I will soon. Papa is awfully put out over it all."

Opposition. CLAIM DEMANDS ARE EXCESSIVE.

CHINESE PRESS OBJECTS TO ATTITUDE OF BANKERS.

Supervision Asked for Is Characterized as Disgrace and Dangerous. Patriotic Movement Is Started to Have Public Contribute to National Exchequer.

[Special by Federal Wireless Telegraph Line.]

PEKING (China) May 28.—The feeling is gaining ground among the Chinese that the International Bankers' demand are too great. The Chinese press violently opposes the foreign loan, holding that the supervision demanded by the bankers is a disgrace and dangerous to China's sovereignty.

The opposition to the foreign loan is rapidly taking the form of a great wave of patriotism. It is affecting all classes and is unparalleled in Chinese history. Officials agree to reduce salaries barely sufficient for livelihood. Meetings are held in all the large cities and speeches are made exhorting the citizens to contribute to a national fund. The chambers of commerce in various cities receive subscriptions and heavy canvassing is going on. Men are giving jewelry to the cause and women's boys' and girls' funds have been started. Some cities are raising funds by means of bazaars and exhibitions.

In Hangchow members of the military staff contributed 30 per cent of their salaries; in Honan the officers have agreed to accept half pay, while in Wu Chang the soldiers have decided to receive only three Mexican dollars (\$1.50) a month. Thousands of soldiers in every province have agreed to take half pay.

Despite the enthusiasm, the authorities doubt the people's ability to raise a sum sufficient for the country's needs. Yet the movement is highly significant. It shows that the Chinese are no longer indifferent to their nation's wants, and thus it marks the beginning of a new era of patriotism, which may make China a world power like Japan.

ENVOYS ARRIVE IN PARIS. Panama-Pacific Commissioners Meet Premier and Are Given Luncheon by Minister.

Counsel for Coal Road Wrote Famous Archibald Letter.

"Got Judge in Trouble" by Use of His Facile Pen.

Says Letter Was Practically Dictated by His Chief.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, May 28.—John L. Saeger, counsel for the Delaware, Lackawanna and Western Railroad, today admitted authorship of a letter to Interstate Commerce Commissioner Meyer, which "got Judge Archibald in trouble," and said he had written it. In this letter Mr. Saeger stated that he knew "on reliable authority" that the Marion Coal Company of Scranton had left the property and would not continue a suit against the railroad company, pending before the commission.

It was following this letter that the United States Court at Scranton rendered a judgment against the coal company on another suit. Mr. Saeger explained that he had written the letter at the orders of a superior, William S. Jenney, general counsel of the railroad.

The witness said that Mr. Jenney "practically dictated" the letter. He also said that he had seen two letters from Judge Archibald bearing on the coal company's affairs from Jenney's office.

"Did you ask Mr. Jenney for the 'reliable authority'?" asked Representative Norris.

"Yes, I knew you would ask me that, and I asked him yesterday before coming to Washington," said Saeger. "He told me that he would take care of that part of it and gave me no other answer."

Saeger displayed enmity toward William F. Boland, of the Marion Coal Company, declaring that Boland's "blackmail" Chairman Clayton endeavored to pin him down to a legal definition of blackmail, and the witness replied by describing what he thought had been Boland's "harrasing and annoying conduct toward the railroad."

Mr. Boland asked to be heard on this point.

"I want to say that the statement of Mr. Saeger that there was conspiracy and blackmail on my part is absolutely and unqualifiedly false," Boland declared.

AMENDMENT IS REPORTED.

Arizona Assembly Apts on Direct Election of Senators While Sitting as Committee of the Whole.

[BY A. P. NIGHT WIRE TO THE TIMES.]

PHOENIX (Ariz.) May 28.—The Arizona assembly, sitting as a committee of the whole, today reported for passage the amendment to the Federal Constitution, providing for the direct election of United States Senators.

The bill requiring all corporations to pay their employees twice a month, met vigorous objection in committee, but was finally favorably reported by a majority of three votes.

In regular session today, the Assembly spent most of its time discussing amendment to an election law, and voted an amendment requiring the officials to open all polling places at 10 o'clock in the morning for the benefit of the workmen.

BANDITS BESET THEIR FLIGHT.

Mexico City Refugees Reach San Francisco by Boat.

"It's a Wonder We're Alive," Is Their Declaration.

Desperadoes Attack Train en Route to West Coast.

(Special by Federal Wireless Telegraph Line.)

LOS ANGELES TIMES BUREAU, San Francisco, May 23.—"It is a wonder that we are alive to tell the tale."

This is the way Mr. John Edwin Roberts, who was a passenger on the steamer City of Sydney, which arrived from Mexico today, prefaced a story of their sensational escape from the City of Mexico.

Leaving their home and all their possessions except their clothing, Mr. and Mrs. Roberts fled from the trouble city three weeks ago, and took a train for Manzanillo.

All went well on the trip until midway between Guadalajara and Culiacan, when bandits attacked the train.

At the first station out of Guadalajara the wandering desperadoes fired through the windows of the coaches, killing two passengers and wounding several.

The engineer was forced to stop the train while the bandits went through the coaches, relieving the terrified passengers of their cash and jewelry.

Twice in one day desperadoes attacked the train, shattering windows and riddling the coaches with bullets, while the passengers were robbed of every valuable.

"If anyone tells you that Mexico is not in a state of terror and turmoil, they are telling something which is far from being true," said Roberts. "Business is at a standstill, and in my opinion, nothing but intervention will bring about order."

Roberts has been in Mexico for three years. He is a British subject and was manager of a large cotton plantation near the City of Mexico. Senorita Guadalupe Jacobo, one of the most beautiful of the Mexican maids of Guadalajara and an heiress, accompanied by her elder sister, Senorita Mercedes Jacobo, also arrived from Mexico on the City of Sydney.

Aboard ship it was the talk that the great drooping dark eyes and languorous smiles of the pretty Spanish girl had found much favor in the eyes of one of the wealthy and prominent young men of Fresno's social circles, and that the game of eyes was played energetically until the help was met by local relatives and a timid young man who is said to be her preferred suitor.

"MEXICO NEEDS BIG MAN." "There is no man in Mexico big enough to meet the insurrection crisis," said Allen Moler, a civil engineer, who, with his wife and four children, fled for their lives from the trouble zone in Yucatan. They reached San Francisco today on the City of Sydney.

"Madero is a dreamer. This man, who appeared in first place big enough to succeed Diaz, has proved hopelessly inadequate. Madero is trying to back the shade of Napoleon, but there will be no 'Back to Elba' with him. Orozco is a big man in his way, but he does not meet the measure the country needs to drag it out of chaos and place it on a sound governmental footing. Orozco has established what may be called a republic within a republic. He controls Northern Mexico, but that will be as far as he will go. If he attempts to interfere with the south, he will meet his end at the hands of the Zapatistas."

"Summing up the situation in Mexico, no man has proved himself a man in a situation. I see no solution but intervention. Business is at an absolute standstill all over Mexico. The few substantial people of means are getting out. The only Americans and foreigners who are remaining are those who have their investments and are loath to leave."

Under Proposed Charter.

SUPERVISORS TO NAME THE COUNTY OFFICERS.

AFTER JANUARY 1, 1915, the officers of Los Angeles county, with the exception of the District Attorney, Assessor and M. W. Thompson, will be appointed by the Board of Supervisors instead of being elected by the people, if the new county charter, as submitted to the voters, is approved.

This feature was dwelt upon at length at the first meeting of the County Board of Freeholders last night in the Hall of Records, and a large majority of the board put itself on record as favoring the incorporation of the appointive plan.

This means that the Sheriff, Coroner, Recorder, Treasurer, County Clerk, Public Administrator and other county officers will be appointed instead of elected.

County officers under the present law will not be affected by the charter, but when it expires their appointments, however, will be subject to the provisions of the charter, and may be removed at any time after January 1, 1915.

Fourteen of the fifteen recently elected members of the board were last night's session. N. W. Thompson was elected chairman and Frank L. Edinborough of Santa Monica, secretary, with a salary of \$150 a month. District Attorney, J. M. Hunter, Los Angeles, and Supervisors Priddy and Butler took part in the general discussion.

Chairman Thompson appointed the following committee: Law, L. R. Wells, Los Angeles; Fred Baker, Los Angeles; F. R. Seaver, Pomona; J. M. Hunter, Los Angeles; George F. Evans, Los Angeles; George F. Evans, Pasadena; Willis H. Thompson, Los Angeles; officers other than those named: J. M. Hunter, Los Angeles; T. H. Dudley, Santa Monica; J. M. Baker, Los Angeles; civil officer, Charles Wellborn, Los Angeles; J. M. Strine, Downey; W. A. Engle, Los Angeles; roads and highways, H. C. Hubbard, San Fernando; T. H. Dudley, C. F. Kernaghan; final redraft and revision, J. M. Hunter, F. R. Seaver, Assessor and M. W. Thompson.

Considerable time was devoted to a discussion of the methods and plans of naming and electing Supervisors under the proposed charter. The chairman called upon the individual members of the board for expressions, and each had a different opinion. All the Freeholders, however, expressed themselves in favor of increasing the pay of the Supervisors, who now receive \$200 a month, and \$750 mileage annually.

Charles Wellborn championed the commission form of government for city and county, and said that three Supervisors could manage the affairs of the county in a more businesslike manner than a larger number. He is in favor of having the Supervisors supervise the various heads of departments in the county with the exception of highways, which is to be made a separate department under a provision in the charter.

Several of the members stated that they were in favor of electing the Supervisors at large, but Willis Edinborough, Santa Monica, and others opposed this plan.

"I am in favor of electing the Supervisors from districts," said Edinborough. "It wouldn't be fair or just to elect them at large, for that will mean that Los Angeles city will control the board."

"There isn't the slightest doubt but that all county officers will be made appointive with two or three exceptions," said Baker, in discussing the proposed plan that, if successful, will remove the political plums from the political arena.

A room has been fitted up on the third floor of the Hall of Records as headquarters, where the committee will meet.

Federal Court Refuses to Issue Order Against Alleged Brazilian Valorization Coffee Combine.

(BY A. P. NIGHT WIRE TO THE TIMES.)

NEW YORK, May 23.—Judge Lacombe filed the decision of the Federal Circuit Court judges today denying the motion for a preliminary injunction to restrain the alleged Brazilian coffee valorization combine from parting with \$50,000 bags of coffee in the warehouses of the New York Dock Company in Brooklyn.

The opinion written by Judge Lacombe and concurred in by Judges Cocks, Noyes and Ward was filed in the Federal District Court.

Judge Lacombe says: "The temporary relief which the bill asks for is an injunction (to continue to final hearings and decrees), which will practically impound this coffee so that the owner cannot sell it to anybody in this country at any price, cannot ship it abroad and sell it there should a satisfactory price be obtainable, and cannot even return it to the place whence it came."

"The numerous issues of fact and law, which have been referred to in the hearing, present important questions and contain too many elements of uncertainty to be decided summarily in advance of the trial."

GOVERNMENT MAY APPEAL. (BY A. P. NIGHT WIRE TO THE TIMES.) WASHINGTON, May 23.—The denial of the Attorney-General's application for an injunction in the coffee trust case will not cause the government to abandon the suit.

An appeal from the New York court's decision to the Supreme Court of the United States is being considered.

CURT WORD TO LORIMER. Senators Kern and Lea Ask Him to Say Specifically When He Can Appear in His Own Behalf.

(BY A. P. NIGHT WIRE TO THE TIMES.) WASHINGTON, May 23.—Senators Kern and Lea, of the anti-Lorimer contingent of the Senate, today telegraphed Senator Lorimer asking him to state specifically when he would be here, so that an early vote to dispose of his election could be held.

"There is no disposition," they telegraphed, "to fix a date for a vote on your case that will prevent you from having an opportunity to speak on it. Your telegrams indicate that you can and expect to be here within a short time. Will you kindly indicate a time that you can be here so that an agreement to vote at an early date can be reached?"

This telegram was in reply to a message from Senator Lorimer to Senator Kern, saying that he hoped to be able soon to return to Washington, that he wanted to speak, but did not feel able to proceed now, and requesting that his case be put over. Senator Dillingham, chairman of the investigating committee, received from Mexico today from Dr. S. B. Slay.

OFFERINGS at Barker Bros.

Piano Buyers—Attention!

—do you know that Barker Bros. are closing out a great number of pianos to make room for the arrival of a large stock of the famous MELODIGRAND pianos, for which we have recently secured exclusive Southern California agency?

—do you know that in discontinuing some of the lines we have previously carried, to make room for the MELODIGRANDS, we have reduced prices so liberally that the saving will surely prove a surprise to you?

—we are now offering many beautiful new pianos and player-pianos at prices that under any ordinary conditions would be absolutely impossible—positively ridiculous—investigate!—don't delay!

GREAT GUSHER
AT FULLERTON.Amalgamated Well Flows
Ten Thousand Barrels.Brought in from Depth
Considered Shallow.Sump Hole Saves Enormous
Volume of Oil.

What is believed to be the biggest gusher ever brought in to the Los Angeles basin in the Fullerton field, broke forth yesterday morning in well No. 10 of the Amalgamated Oil Company, and from that time received last night was flowing at the rate of 10,000 barrels a day. The pressure, which was very great when the well came in, forced the oil out of the hole and scattered it about, and then, with a roar, the oil came shooting in knocking parts of the derrick and scattering heavy timbers every direction.

The gusher was brought in at a depth of less than 1400 feet, the entering what was believed to be a stray formation at about 1300 feet less than ten days ago. A heavy pressure developed and the crew prepared for emergency in case the stray formation would anything out of the ordinary. A sump was also constructed in the well and this sump is now being used for the oil that is being brought out of the hole.

Being in a gusher at less than 1400 feet is something entirely new in the Fullerton field, all the other gushers well there were at not less than 2500 feet. No. 10 is located just over the line from Amalgamated No. 1, and it is estimated that about 25 per cent of the gusher is due to the gravity and of a nature different from that coming from other wells in the field.

The volume of gas in the well, the appearance of the stream of oil, is supposed to be well back in the formation and the formation itself is supposed to be between the new and well No. 1, and other gushers in the field.

The last report the gusher was throwing its oil over the top of the derrick, a contrivance being arranged with heavy timbers to break the force of the flow and throw it back, rather than straight up. The well was brought in with such casing, making it capable of holding out the great volume of oil without weakening the casing, but in the well shows no indications of being up, it is said that such is the case.

Reports of the bringing in of the gusher sent the stock of the Amalgamated company up four and one-half points on the Los Angeles Stock exchange yesterday afternoon.

CONDITIONS BETTER.

Former Norwegian Consul at Los Angeles Comes Here to Make Home and Tells of Rebellion.

Conditions are nearly normal again," said Christen Sorenson, former Norwegian consul at Los Angeles, who with his wife arrived at the Westminster yesterday and intends to remain here and make it his permanent home.

There was still considerable fighting among small parties in the interior provinces when we left about a year ago," he added. "The country is gradually waking up to the fact that the new nation does not mean prosperity and the new order of things is making itself apparent. It is only a matter of time before the nation will become cohesive in its efforts to form a republic."

Previous to going to Los Angeles, Sorenson was assistant judge at Valparaiso in the northern part of Norway, and is in Christiania.

HIS TREES SAVE HIM.

Nurseryman Arrested for Failure to Provide Let Go Because His Orchard Would Die Without Him.

In order that he might go back to his nursery near Monrovia and attend to 70,000 young orange trees that would suffer if he was detained in jail, John P. Coats was released on his own recognizance by Judge Bordwell yesterday after he had been held to the Superior Court by Justice Young on the charge of failing to provide for his wife. Bond was at first fixed at \$2000.

Mrs. Coats secured a divorce from the nurseryman ten years ago on the grounds of desertion. Coats was to pay his wife \$25 per month. According to the information submitted to Deputy District Attorney Graham,

Coats has paid his wife \$50 in that time. Coats had but \$25 when held to answer. He gave \$25 to his wife, keeping the remainder for expenses back to Monrovia.

Curstling Expenditures.

Plainclothesman Robinson testified yesterday that Frank Wilson came in from the aqueduct work a week ago last Saturday, and since that time had been drunk. "That don't make him a vagrant," declared Judge Rose. "A man has a right to go on a week's leg if he wants to, provided he doesn't get into trouble. Our jails would not hold all your prisoners if you arrested everybody in San Diego who went on a week's spree. And, besides, you are discouraging people from spending their money by making arrests like this. The defendant is discharged."

UCAIPA VALLEY—

FOR SALE—

RED APPLE LAND

IN THE
TUPACAIPA VALLEY.

Where apple orchards have produced \$1000 an acre and cherries \$40 per tree. Where potatoes, onions, sweet potatoes, beans, melons, gooseberries, currants, in fact, all sorts of fruits and vegetables, grown between the young mountains and the sea.

Land is selling at \$775 an acre, with one share of water to each acre. This is water in a mutual company, running on the same plans as the water companies in Redlands. The Redlands & Yacalpa Land Co. owns 11,008 acres of choice land in the valley. In one and a half years' time about 250 acres are to be turned over to the settlers. About 50 per cent. of this has been sold to apple trees of the red varieties. Among the largest buyers are men of

tricts of the West, a fact that in itself shows the superiority of the Yucaipa Valley for the production of the Big Red Apple.

Investigate this proposition today. Take a trip out with us any day in the week and be convinced that here is your opportunity for making money.

The Oil Industry.

PROFITS GROW DESPITE SUITS.

Waters-Pierce Earns Over Half a Million.

Mexican Uprising Alone Is Draught.

Two Santa Maria Companies Unite Forces.

The report for 1911 of the Waters-Pierce Oil Company shows assets of \$4,487,546, and net profits for the year of \$1,000,827, as against net profits of \$1,024,041 for 1910, and \$222,019 for 1909.

Within the past six years fines imposed through anti-trust suits have amounted to \$2,187,472. When Texas imposed its big fine in 1909, the whole amounted to \$2,295,530. The excess of litigation and expenses over profits for 1909, 1910 and 1911 was \$1,515,714.

According to President Clay Arthur, business showed a small increase in 1911, over 1910. The Mexican political troubles greatly hampered progress of the company, and reduced profits from that country in proportion.

Final and Dome Unite.

In the Santa Maria field the Pinal and Dome have united, the new concern being the Pinal-Dome Oil Company. The organization includes also the properties of these concerns in the Midway field, making in all 505 acres in the main field of Santa Maria, 2000 acres in Cat Canyon and Tineo, and eighty acres in the Midway. It will also own and operate its own refinery at Bakersfield. It possesses a shipping point at Berkeley.

An amalgamation of the two companies has been contemplated for a year, the management of both always having been the same. The controlling interest is held by Santa Maria men, and no visible change will be made through the new order of things.

The Pinal-Dome Oil Company will have a production of about 75,000 barrels monthly. Of this, 75 per cent is a twenty-five gravity, more or less. F. F. Goodwin will remain with the company as its president and general manager.

Pipe for New Line.

The Standard has delivered at Waco six carloads of eight-inch pipe for a new line from Fond's to the Lost Hills, and is now delivering it along the right of way for the construction work. Work will begin at an early date.

The Lost Hills pumping station will be built on section 36. A collection of cottages will be erected, and other improvements for the accommodation of employees. A good water supply is available, making it possible to plant grass and make gardens, which will add to the comfort of the employees, and add to the appearance of the station.

S. F. Policy May Change.

The Associated, it is reported from the field, is to move on section 33 and the Lost Hills, lying adjacent to the Universal's undeveloped area, and will begin operations the last of this week. If this report be true it indicates a departure from the policy of the Southern Pacific. Always in the past the railroad lands have been sold exclusively by its subsidiary, the Kern Traders' and Oil Company, while the Associated, its other subsidiary, has taken no part in such development.

Belridge Grants Lease.

Leases have been granted by the Belridge Oil Company to Los Angeles men on parts of sections 21, 8, 18, 22 and 29, in township 28-N, McKittrick. The leased area is 1000 acres. The Los Angeles men, headed by a man named Doyle, bind themselves to drill every tract involved.

The object of the company in leasing is to have its vast holdings tested at the expense to itself. The leased locations in the McKittrick field, when drilled, will demonstrate what is there, the operators bearing the expense.

On section 35, 28-20 the Belridge has given a lease on 200 acres to F. F. McNeil, who will develop the area.

Looks for Big Well.

From the offices of the Pyramid Oil company at San Francisco comes the information that that company expects to finish its well No. 1, section 18, near Buena Vista lake, within the next thirty days. Reports from the field are that at 975 feet the rock was encountered, a strong gas pressure, and that this gas has been evidenced since passing 950 feet. The geological character through the well is now passing into sand, and the main oil sand, from this strong gas pressure comes, at a few feet of additional depth.

Levin Second Assessment.

The directors of the National Petroleum have levied assessment No. 2 of \$1.00 a share, to become delinquent June 1, with August 1 set as sale day. At the meeting, H. Edwin Moore was president of the company, and J. H. Gibson, vice-president. The company since it organized and acquired the Consolidated Midway property to the day of the election was without a president.

Carbon Abandonment Lease.

The Carbon Petroleum has abandoned its lease on the east half of the southeast quarter of section 28, This well, drilled into the sand, several weeks ago, was reported at the time to be flowing 1800 barrels a day.

Investigation disclosed the fact that the well was actually producing about five barrels a day on the

West Side Notes.

The tentative deal of the Bear Creek Midway, with the General Petroleum, has been held up pending investigation as to the company's standing. The terms of the deal provide for payment in stocks of the General Petroleum. Eight-inch casing in well No. 1, the Midway Five has been laid in at a depth of 2292 feet. Just below the bottom of the hole the casing was broken off and a dynamite charge was exploded. The casing is now being perforated. In No. 4, 1000 feet of the rotary was run, and it will take several days to complete the well and determine the productivity of the sand. The property is located on section 34, 28-24.

The Midway Alliance expects to resume operations in well No. 1, June 1.

ORCHESTRA TO ITS LEADER.

WOMEN HONOR TALENTED AND FAITHFUL DIRECTOR.

When, in behalf of the Woman's Orchestra of Los Angeles, yesterday afternoon at Blanchard Hall, Dr. Norman Bridge presented Harley Hamilton with a gold watch, rich in its design, and of rare quality, the oldest organization of women in Los Angeles expressed their profound appreciation for a conductor who has been their leader and inspiration for more than twenty years.

Originally this orchestra was composed of Hamilton's juvenile pupils. It was then, and is now, the only successful organization of its kind in the world, although its enthusiastic president, Miss Cora Foy, has received from the president of the Institute Society of France a letter regarding a full description of the orchestra's organization and methods, with a hope of founding its counterpart in Paris.

In first rehearsals were held in the old Larrabee Hall at Fifth and Olive streets, a site now occupied by the Auditorium Hotel. Their next headquarters were with Blanchard & Fitzgould, on Spring, between First and Second streets. When the Blanchard building was erected they made Blanchard Hall their home, and it is

there that their rehearsals are still held and their concerts given.

Their first concert was for the benefit of the Associated Charities of Los Angeles, and was managed by L. E. Hamilton, who has managed every concert which they have given since that time, just as Hamilton has been the only leader they have ever had.

The second concert was given at the home of Mrs. Hamilton, and then to the children and the event for them was successful. Never have they ceased to regard their first harmonizing as the shining mark in their careers.

In the beginning they had only three members. Later this increased to fifty and then to fifty. Its members grew into women, and were married or entered some profession, but they never failed to return. Many of them went abroad, but these found their way back again and fell into their old place with the orchestra. Without exception it has been the experience of those that for pure orchestration in Europe could take the place of the Woman's Orchestra of Los Angeles.

The membership is Catholic. It includes women who play for moving picture shows and in cafes of the city, and many who are interested in the many excellent musicals of the public schools and the drama of this work in the school.

The admission of girl graduates into the Woman's Orchestra of Los Angeles has been a source of pride to the organization.

An excellent opportunity has been given the orchestra to young women who have kept up their musical training while in the city, and who have found a great relief from routine work in the classic symphonies and the orchestra has produced.

Among the charter members who have played steadily with the orchestra for twenty years and who were present yesterday afternoon to witness the handsome presentation to their leader and to participate in the annual concert for the season was Mrs. Harry Thompson.

Mrs. L. M. Leach, Nellie Williams, Mrs. Harry Thompson, Mrs. Cook and others. They presented an especial treat in the form of a pure soprano solo, "The Swan Song," by the soprano of Sir Arthur Sullivan.

Fuller expects to remain in Los Angeles for at least a year, and her happy introduction yesterday afternoon features here will be a future with delight.

Recognition is rewarded this week at the end of the hill. This is important, for the character of one or two of the members might lead the orchestra.

SOCIETY

Mrs. Thomas Lee Woolwine

Mrs. James E. Woolwine

FASHIONABLE Los Angeles responded graciously to invitations issued by Mrs. Benjamin Lombard Harding and her daughter, Mrs. James E. Woolwine for a musicale at the Hotel Beverly Hills yesterday afternoon.

The 250 guests were received in the reception room, which was a mass of Scotch bloom, and then taken to the terrace, where rare vines and shrubs ran riot. Tables and cozy nooks were placed convenient for pleasant gossip and later a collation was served on the side veranda from tables bristling with the palest of pink peas.

Mrs. Harding was attractive in a handsome lingerie gown over white satin, while Mrs. Woolwine wore an exquisite lace creation over pink satin. They were assisted in completing the success of the afternoon by Misses W. G. Cochran, Robert Pierce Sherman, W. S. Hook, Jr., Thomas Lee Woolwine, Hamilton Bowman Rollins, S. S. Salisbury, E. D. Mathews, Henry Owen Everole, Charles Hopper, Raymond Stephens, Albert Crutcher, Goodie Rayburn Woolwine, F. H. Case, Titian Coffey, Edwin S. Rowley, Thomas Caldwell Ridgway, Herman James, Harold Braly, Charles O. Nourse, Leo Chandler, and the Misses Harriett Severance, Marjorie Severance, Mary Burnham, Helen Newlin and Edith Maurice.

Interesting and enjoyable was the musicale presented by Mrs. Thomas Lee Woolwine, soprano; Mrs. Pearl Durck Selby, contralto; Miss Freida Percha, pianist; Miss Mervie Quillet, harpist; Miss Otto Neher, violinist, and Miss Grace Hilgen, flautist.

To Return.

Former Senator and Mrs. Stephen Dorsey will soon return from their season in London.

A Happy Wedding.

A happy wedding, which was combined with a musicale, took place at the home of Mr. and Mrs. William M. Pennebaker, No. 359 East Thirty-fifth street, occurred the wedding last Wednesday of Miss Rebecca Anna Solbach and Amos Henry Kutter. The bride, who was attired in a traveling suit of gray broadcloth with hat and gloves to match, was attended by little Irene Pennebaker in a frock of white with pink ribbon. Rev. Fairchild, rector of Grace Episcopal Mission, read the service in the living-room, which was canopied with ferns and studded with white roses and carnations. Supper was served following the service from a table decked with pink peas. Mr. and Mrs. Kutter left

C. Leacock, Mrs. Paul Walsh, Misses Harriett Kelher, Doris Kelher, Helen Gilles, Augusta Gilles, Mabel Sullivan, Detroit, who will act as Miss Kelher's maid-of-honor; Loretta Young, Mabelle Lewis, Helen Dickey, Beatrice Chambers, Ethel Hutton, Helen Spencer, Clara Wells, Mary Greys, Hazel Sparkling and Myrtle Hoel.

San Diego News.

Miss Olive Percival of Los Angeles is the house guest of Mrs. G. W. Purcell for a visit that will continue two weeks. Miss Percival is a leading literary and club woman. She is a member of the Friday Morning Club of Los Angeles and of the Japanese Society of London. She was the guest of Dr. Bessie Peery and Miss June Peery at a motor party luncheon at Grossmont last Wednesday. She was the guest of Miss Florence Moore at a luncheon last Friday and she went to La Jolla Saturday, where she will be the guest of Madame Heinrich at the Green Dragon for a few days.

Mrs. Leroy Wright and Mrs. Mella E. Stead were hosts, which will paint a musical given at the home of Mrs. Stead. Seventy-five guests attended Mrs. Stead's party. Mrs. Wright and Mrs. Stead were assisted by Mrs. P. C. Remondino, Mrs. Fred Jackson and Mrs. Lucian Bous.

Mrs. Alice Klauber and Mrs. Julia Wengelm entered at the home of Mrs. Wengelm Tuesday afternoon complimentary to Miss Olive Percival of Los Angeles. The occasion was also a farewell to Miss Klauber, who left yesterday for Europe to begin a summer sketching tour. Miss Klauber will join the Robert H. H. Woodcock, A. T. Jorgens, Percy Bronson, L. W. Farmer and E. H. Wilkes.

Mr. and Mrs. Herbert J. Goudge entertained on the same evening their party including Mr. and Mrs. Williams of Pasadena, Mr. and Mrs. Conklin, Mrs. Dexter and Messrs. Lucien and Jack Dexter, Mr. Moore and his daughter, Miss Margaret, Miss Agnes Goudge, Miss Dorothy Williams, George Goudge and Miss Mildred.

On Sunday and Monday the many hosts included Mr. and Mrs. Frank Alsworth, Judge and Mrs. Allen, with whom came Miss Wrenn, Mr. and Mrs. Alkire, Mr. and Mrs. Brickner, Mr. E. M. Butler and Dr. and Mrs. Stoner, Miss M. L. Craig, J. B. Elliott, W. A. Fane and family, Mr. and Mrs. H. N. Gifford and Miss Gifford, A. B. Hueth, Dr. and Mrs. Kiger, Mrs. N. B. Carter and her son, Bruce, William Mackie and R. W. Arnold, D. W. Pierce and family, Mr. and Mrs. E. G. Miller and Mr. and Mrs. Roberts and Miss Lulu Roberts.

Mr. and Mrs. Rutherford were among the dinner guests, as were Mr. and Mrs. L. P. Stephens and Mrs. Sayre occupied a table. Miss Fanny Shoemaker was another hostess, and Mrs. H. W. Snyder had a small party.

Mr. and Mrs. M. P. Snyder, who recently entertained on a large scale at the Hotel Country Club, gave a dinner party, and F. Q. Story was a host. H. J. Stave and his brother and Mr. and Mrs. Kingham were among the dinner guests, as were Mr. and Mrs. D. R. Miller and their daughters. Mr. and Mrs. Tatum gave a small dinner party, and Capt. and Mrs. Wharton entertained some friends.

A number of bachelors also occupied a very gay table, but they are quite spoiled without getting their names in the paper.

Thursday, Memorial Day. will find the club largely attended and two golf tournaments have been arranged for, besides several tennis matches.

The Gilbert Dance.

Miss Bernice Gilbert and a number of her girl friends will give a supper at the Hotel Country Club on Saturday evening, when about 125 young people will assemble.

BIGAMY CHARGE INSISTENT.

Man Arrested for Second Time in Two Weeks and Woman Said to Be First Wife Will Testify.

Constable Woodbury took another look at the hour-dog of William Rawlins, a much-arrested man, yesterday.

For the second time in two weeks a charge of bigamy was pressed against Rawlins, the first complaint of this nature having been dismissed Friday because Mrs. Mary Rawlins, alleged to be his first wife, refused to testify. Mrs. Rawlins has now consented to journey from her Colorado home and appear against him.

Out of the many charges brought against him, Rawlins' felony of bigamy was the only one that was not dismissed. In justice to the court, Rawlins' morning with three felony complaints against him—grand larceny, bigamy and failure to provide for Mrs. Zelma Rawlins, who resides at No. 3708 South Figueroa street.

Young Wife Has Husband Arrested for Alleged Failure to Provide, Repents of Having Brought a Charge of Failure to Provide Against Her Husband Half an Hour After It Was Issued from Justice Summerfield Court.

Allice W. Skeffington of Whittier yesterday sought to have the charge dismissed. Failing in this, she tearfully paid the County Jail \$10 for two weeks' special board for her husband.

As Mrs. Skeffington will refuse to testify against him when he is examined on the charge, June 2, he will probably be discharged from custody. Skeffington at Whittier Monday evening. When taken into custody he was in earnest conversation with his attorney, who is now in the city. Not being able to convince the deputy or Justice Summerfield yesterday that the charge should be dismissed, the wife did the next best thing and paid three meals per day for him at the County Jail.

HER CASE POSTPONED.

In the United States District Court yesterday the case against Etta M. Thompson, wife of Fred H. Thompson, the convicted attorney, who is also charged with receiving and appropriating \$15,000 stolen from the Los Angeles postoffice by Orlando F. Altorre, went over for the term. It is not believed that it will ever be tried, but the indictment stands. Meanwhile, the government is paying \$1 a day for guards to watch Thompson while he is at the Angeles Hospital taking treatment for his injured right leg.

Mutual Benefit Association of Broadway Department Store Employees Have Enjoyable Evening.

The Mutual Benefit Association of the Broadway Department Store held its annual meeting and dance, last night at Kramer's. The attendance was the largest in the history of the association, between 700 and 800 employees of the store, and their friends, having been present. The returns of the annual election were printed on the programme and no time was taken up by a business meeting, but the entire evening given over to dancing and games.

The treasurer's report shows that over \$7000 has been distributed in sick benefits, among the members, and nearly \$4000 for the services of physicians. The membership is now a little short of 500, but it is expected to reach this number before the next meeting.

The officers are as follows: President, W. J. Smith (re-elected); vice-president, W. Perry; secretary, W. H. B. Kilner; treasurer, Roy R. Musser. Executive Committee: Messrs. Griffin, Michalek, Levin, Grimm, Bell; Misses Fugit, Smith, Powers, Brooks, Greenburg.

Actor Witness Excused to Appear in Play; Other Witnesses Also Leave, and Case Dismissed.

The many persons who witnessed the matinee performance of the Mission Play at San Gabriel yesterday were more or less indebted for that pleasure to Police Judge Frederickson, who, although probably none of them knew it, G. S. Chan, a reputed herb doctor, at the same time escaped prosecution on the charge of violating the State laws by practicing medicine without a license.

Chan's case was called before Judge Frederickson in the morning. Among the witnesses was Justice Bachman, one of the leading character actors in the Mission Play. Chan asked for a jury, and most of the morning session was devoted to securing twelve men. Shortly before noon Bachman told Justice Frederickson that there was to be a matinee performance of the Mission Play, and the house had been sold out. He wanted to be excused, saying that if he could not return to San Gabriel there would be no matinee performance.

The making of bread in Palestine is very tedious and primitive. What a contrast these ancient methods are with those of our own progressive country. HOW TO GET REDUCTION.
City Attorney Points Method to Be Followed by Those Seeking Five-Cent Fare Beyond Rose Hill.

City Attorney Sherk submitted to the Board of Public Utilities yesterday his opinion on the petition of residents within the recently annexed territory beyond Rose Hill, asking for a 5-cent fare.

The City Attorney's statement reviews former proceedings, showing that he has previously reported to the Board of Public Works that the Pacific Electric has no franchise to cross Mission road, and that a former board required the company to apply for a franchise.

The franchise application was finally denied by the Council, and later the Pacific Electric asked for a reconsideration, but eventually this request was denied.

The City Attorney points out that there are two methods of procedure for the people who want the 5-cent fare limit extended. Individuals may bring suits for refusal of the company to accept the 5-cent fare, or the board may grant a franchise to cross Mission road and other streets, and in this franchise place the 5-cent fare provisions.

He recommends that the Board of Public Utilities ask the Council to reconsider the request of the Pacific Electric, so that a franchise across those streets may be granted, and the 5-cent fare reached in the most logical manner.

Benefit Receipts Increase.
Mrs. E. C. Bellows, president of Ebell, made the gratifying announcement at the last meeting of the club that the receipts of the recent entertainment, "Jappyland," given for the benefit of the McKinley Home, have increased almost \$100 by reason of belated returns coming in.

A private donation of \$50 has also been received for the benefit of the home.

Compos Club Closing.
The last meeting of the year of the Compos Club will be tomorrow afternoon, when the music section will present the programme, with the director, Dr. Bruce Gordon Kingsley.

There will be violin solos by Mrs. Gertrude Phelps Harrison, accompanied by Miss Marjorie Malone; diatonic songs by Mrs. Charles G. Greene; readings by Miss Hazel Bly; a vocal solo by Miss Helen Beatrice Cooper; and piano solos by Mrs. Frank Colby and Miss Helen Newcomb.

A reception to the new members of the year will follow the concert. The annual business of the club will be held on Friday at Beverly Hills Hotel.

"Sure We Are Busy"
That's what the Tailoring Department Manager is Saying

—day in and day out now—Dozens and dozens of suits have been ordered the past few weeks, and they're going out fast as can be allowing sufficient time for the cutting and tailoring that must meet the Bullock standard—

We Want To Turn Out Lots of Suits

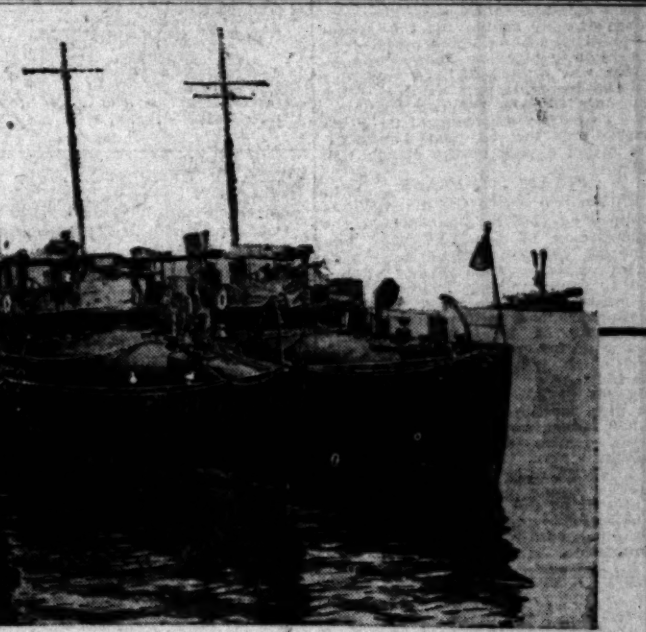

—yet, at the same time, this Department of Men's Tailoring will not let a suit go out of the store until the man it is made for is perfectly satisfied—This rule has always been followed and we will continue to follow it just as long as there is a Men's Tailoring Department in the store.

Give Your Order For A Summer Suit, Today

—Choose your material from among the smart summer fabrics that are attracting so many men—seasonable chevrons, serges, meltons and the best mixtures we have ever had are here to be made up into the best suits Bullock's has ever made for \$22.50, \$25 and \$30.

—Make it a point to see them today—See the kind of suit Bullock's can make for you—

Two More Parlor Car Excursion Trips to the Harbor—Tomorrow—Memorial Day

Special Round Trip Fare Only 25c
Including Water Trip on the New Yacht "Anita D."

Hundreds of people had to be refused accommodations for our special parlor car excursion trips to Wilgry-at-the-Harbor, Sunday, May 26, owing to lack of room.

For the benefit of these people and others who wish to take in one of these highly educational and profitable harbor trips, we will run two more excursions on Memorial Day, Thursday, May 30. Bear in mind that no other harbor trip of this character is available at any price.

We give you a thorough opportunity to inspect all the municipal, industrial and private improvements of the outer and inner harbor. We show you where Los Angeles is spending her millions—where the United States Government has already expended millions, and where private enterprises will invest many more millions.

Special lecturers accompany each car, explaining the entire harbor situation to you. At the end of the trip, we show you Wilgry, the only industrial property close to deep water, purchasable at really low prices.

About \$70,000 worth of Wilgry property was sold Sunday, May 26. Some excellent sites are left at \$700 and up, with reasonable terms. A profit of 70 per cent. in two and a half months was recently made on a piece of property adjoining Wilgry. The property was purchased March 8, 1912, and sold last week. Experts predict that values per square foot in Wilgry within five years will be higher than industrial property at the city end of Los Angeles. Phone, write or call for tickets at once. Cars leave at 9:30 a.m. and 1:30 p.m. sharp.

the South African campaign

The El Segundo Land & Improvement Company report real estate sales aggregating over \$100,000 in Southern California's progressive young industrial city by the sea, during the past four weeks. Although really on the map barely eight months, property sales totaling close to a million dollars have been consummated within the limits of El Segundo. A selling record of this magnitude under the present firm, conservative condition of the realty market, surely must have something extraordinarily substantial behind it.

Some towns are started for no particular reason at all. El Segundo was brought into existence by no smaller power than that of the great Standard Oil Corporation. It is the home of the Standard Oil Company's second Pacific Coast Refinery. One unit of this great plant has already been constructed and is employing hundreds of men.

Over \$100,000.00 Worth of Lots Sold at El Segundo During the Past Four Weeks

Southern California's Live Industrial City Attracts Many Homebuyers and Investors.

Eight hundred acres of land have been purchased by the Standard at El Segundo, and it is the purpose to establish several more units, thus making the plant the largest of its kind in the United States.

The Standard Oil Company's first Pacific Coast plant was established at Port Richmond, near San Francisco, and twelve months after the erection of this plant, there were a hundred men on the ground. Today—just twelve years later, Port Richmond has a population of ten thousand to twelve thousand people. Seven months after the completion of the first unit of the Standard's plant at El Segundo, there were over five hundred men on the ground. With an abundance of cheap fuel, free factory sites, terminal rates, spur track courts-

esies, and labor efficiency rated the highest in the United States— together with the opening of the Panama Canal and the development of Los Angeles' great harbor—it seems only reasonably fair to predict that El Segundo will surpass its northern rival from the standpoint of industries, population and increase of land values.

The El Segundo Land & Improvement Company is today waging a national campaign through the newspapers, magazines, and the personal work of industrial experts, for the purpose of securing industries of a wide variety for this strategically-located manufacturing center. Southern California offers a large cosmopolitan population from which to draw workers for all classes of industries. There is a

wide selection of raw material in the great and resourceful Southwest. The Imperial Valley offers the highest grade of short staple cotton in the United States. At the recent Eastern exposition Imperial cotton was awarded first prize. The mines and quarries of California, Arizona and Nevada are the richest in the world. Cheap fuel and smelting by electricity at El Segundo offer unlimited possibilities. Then, the California fisheries, and hundreds of varieties of shells, kelp, horn and bone are available. California fruits and vegetables are famous the world over. The great citrus fruit producing area of Southern California offers splendid opportunities in citrus by-products, syrups, extracts

and citric acids. There is a big field for wineries and grape products. The largest winery in the world has been established at Port Richmond as the result of the Standard Oil Company's great plant at that place.

And then there are unlimited opportunities in pressed brick, tile products, valuable woods from the Orient, and timber from South America, Mexico and the Puget Sound District. could prove his assertions, and furthermore that he would continue to ask similar questions if not forbidden by the court. Judge Hutton declared Rogers was not in contempt, but warned the members of the jury to disregard all by-plays between counsel and to ignore any extraneous talk or discussion.

Capt. Fredericks declared he believed in orderly procedure and a legal way of trying a case. He said he did not intend to allow the defense to interject side remarks if he could help it, and he asked the court to hold the defense to such questions as the evidence warranted.

The outbreak came when Rogers referred to the alleged passing of money to George N. Lockwood at Third and Los Angeles streets as a "performance." It was during the cross-examination of the witness.

"I think your honor should punish Mr. Rogers for contempt," said Capt. Fredericks, jumping from his seat. "There is no justification for such a statement."

"I again and with deliberate intent declare," retorted Rogers heatedly, "that the alleged bribery at Third and Los Angeles streets was a fake and a frame-up. I will demonstrate this before the case is ended. I will outline our position right now and question accordingly."

Judge Hutton, after consideration of the matter, addressed the jury, telling each member to disregard what he had heard, and to weigh the testimony of each witness. He said that all attempts to influence the jury must be stopped.

LOCKWOOD ON GRILL.

George N. Lockwood resumed the stand yesterday morning. After replying to several additional questions propounded by the District Attorney, he was cross-examined by Rogers.

"In your direct examination you said you dropped a \$500 bill on the sidewalk in that transaction at Third and Los Angeles streets. What did you do it for?"

"To give a signal to the detectives that the money had passed."

"It was right in the open?" pursued Rogers.

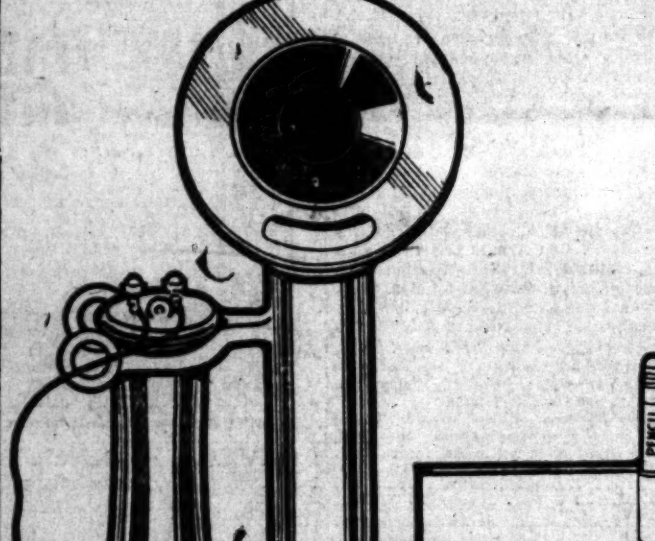

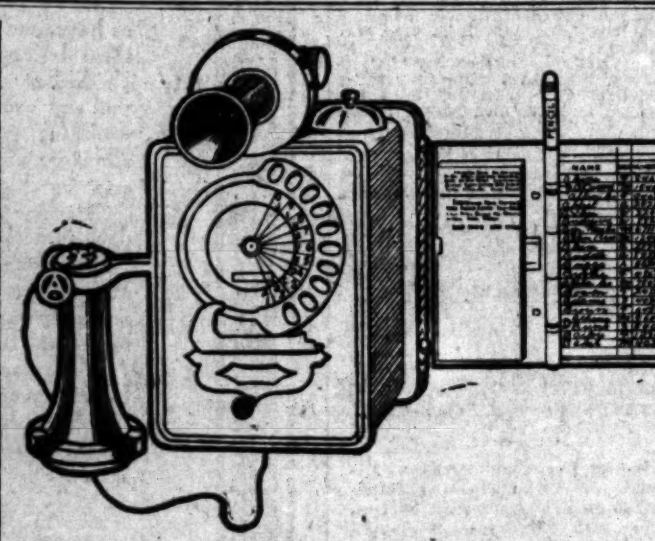

"Yes."

"And it was your intention to be seen?"

"Well, the other side arranged the place of meeting," said the witness. "What do you mean by the other side?"

"Bert Franklin" was the response. "Is he the 'other side'?" sneered Rogers.

"I suppose so," said Lockwood.

Prominent Mining Engineer Passes Away at Yuma and Remains Being Brought Here for Burial.

Marion W. Aubury, a mining engineer, who has been prominent in the oil and mining affairs of this State and Arizona for the past thirty years, died at Yuma, Ariz., on the 24th inst. and is being brought to this city for burial.

Mrs. Emily J. Aubury of the Hotel Auditorium, this city, was summoned to Yuma when her son was taken sick with typhoid fever, and was at his bedside when he died. She is expected to arrive with the body this morning, and the funeral will be conducted tomorrow.

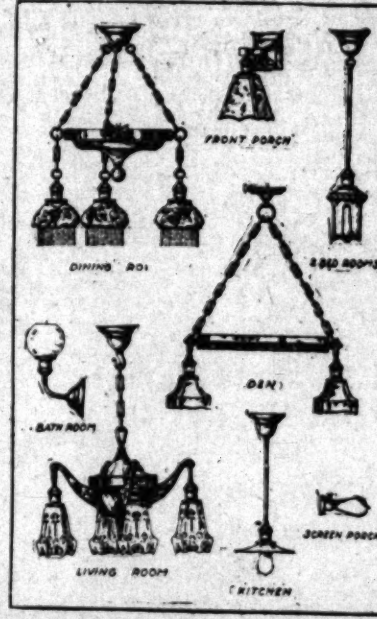

Lewis E. Aubury, ex-State mineralogist, a brother of the deceased, said last night that interment will be in this city, but he has postponed making the funeral arrangements until his mother arrives.

In addition to Mrs. Aubury and Lewis E., the late engineer leaves another brother, W. H. Aubury. The three brothers, natives of California, all became mining engineers and have long been identified with the State's mining interests. Lewis E. Aubury said his brother was one of the first men in California to realize the future of the oil industry here, and did a great deal to advance it.

At the time of his death, Marion W. Aubury was connected with the reclamation project near Yuma. He was instrumental in the opening of the Bodie mine, in Mono county, in 1889, and the Tombstone mine in Arizona in 1885-86. He was 52 years of age, a native of Sacramento, and a graduate of St. Augustine College, Bendle.

The El Segundo Land & Improvement Company report real estate sales aggregating over \$100,000 in Southern California's progressive young industrial city by the sea, during the past four weeks. Although really on the map barely eight months, property sales totaling close to a million dollars have been consummated within the limits of El Segundo. A selling record of this magnitude under the present firm, conservative condition of the realty market, surely must have something extraordinarily substantial behind it.

Some towns are started for no particular reason at all. El Segundo was brought into existence by no smaller power than that of the great Standard Oil Corporation. It is the home of the Standard Oil Company's second Pacific Coast Refinery. One unit of this great plant has already been constructed and is employing hundreds of men.

Over \$100,000.00 Worth of Lots Sold at El Segundo During the Past Four Weeks

Southern California's Live Industrial City Attracts Many Homebuyers and Investors.

Eight hundred acres of land have been purchased by the Standard at El Segundo, and it is the purpose to establish several more units, thus making the plant the largest of its kind in the United States.

The Standard Oil Company's first Pacific Coast plant was established at Port Richmond, near San Francisco, and twelve months after the erection of this plant, there were a hundred men on the ground. Today—just twelve years later, Port Richmond has a population of ten thousand to twelve thousand people. Seven months after the completion of the first unit of the Standard's plant at El Segundo, there were over five hundred men on the ground. With an abundance of cheap fuel, free factory sites, terminal rates, spur track courts-

es, and labor efficiency rated the highest in the United States — together with the opening of the Panama Canal and the development of Los Angeles' great harbor — it seems only reasonably fair to predict that El Segundo will surpass its northern rival from the standpoint of industries, population and increase of land values.

The El Segundo Land & Improvement Company is today waging a national campaign through the newspapers, magazines, and the personal work of industrial experts, for the purpose of securing industries of a wide variety for this strategically-located manufacturing center. Southern California offers a large cosmopolitan population from which to draw workers for all classes of industries. There is a

wide selection of raw material in the great and resourceful Southwest. The Imperial Valley offers the highest grade of short staple cotton in the United States. At the recent Eastern exposition Imperial cotton was awarded first prize. The mines and quarries of California, Arizona and Nevada are the richest in the world. Cheap fuel and smelting by electricity at El Segundo offer unlimited possibilities. Then, the California fisheries, and hundreds of varieties of shells, kelp, horn and bone are available. California fruits and vegetables are famous the world over. The great citrus fruit producing area of Southern California offers splendid opportunities in citrus by-products, syrups, extracts

and citric acids. There is a big field for wineries and grape products. The largest winery in the world has been established at Port Richmond as the result of the Standard Oil Company's great plant at that place.

MANHOOD'S WARD

JOEY BECOMES GUARDIAN OF OLD SERVANT.

Joe Took Care of Him When He Was Young, and He Says He Will Look After Him Now.

Joe O'Flaherty, small, old and was the storm-center of a case in the Probate Department of Superior Court yesterday. Two young interests sought to have of her, one actuated by life-tenance, the other by sympathy. Evidence unfolded before Judge O'Flaherty, and he decided in favor of the life-tenance.

Witnesses were M. J. McGarvey of this city, and Mrs. Hudson. McGarvey told a story of his attachment for the woman who for many years was a servant in his home. He always "bridged" her, as it were, even if some other of the family suffered there-fore, and grew up and became a man in his hands Bridg's property, accumulated during her life.

Property is on East Third street, and with the assistance of real estate, Bridg's worth about \$25,000. She McGarvey served, but her continued as her business, paying the rent, paying the looking after the mortgage on the property.

She would neither read nor write, and she was a time when she turned to him. She revoked the will made in his favor and his placed all her affairs in the hands of Attorney John Foley. He did not argue with Bridg, but her mind had been against him.

He made a second will and, McGarvey's name was left out, and she made a beneficiary. Mrs. Hudson, now Bridg's friend, she took her in not because of money, but because she was a woman. For this service she was paid \$10 a month, but both McGarvey and Foley testified they gave it to \$30, as she was a great deal that was in the fencing of McGarvey. Hudson, the latter denied, influenced Bridg against McGarvey, declaring he had set against her. She said she was of Bridg, because she was around the house at night where she was.

He said he thought McGarvey was a real friend of the woman, and did not believe under present conditions that McGarvey would care to murder. It was to the best of Bridg that McGarvey took out for her, and he appointed her guardian.

He left the courtroom with her.

Flaunting From Back of El Segundo Disadvantages, Says Soldier—Touring.

Flaunting is a jolly sport, but it is not for an ordinary army soldier. Capt. R. Hamilton Craik, of the Own Scottish Borderers, of the 1st J. B. Pennymann of the regiment, registered at the hotel yesterday.

Way to shoot lions is to let a Governor's party, and let a man hunt the beasts.

He had to have a pass or the keep you from killing. He said, in explaining one of the things that might come up, that he started out to do on his own hook.

He kept the game from being shot by lone hunters without parties all you do is sit down while the beasts are out, but it takes a good shot, and you, to hit anything.

During the great Durban war, as did that of his brother, Craik lay in the fact that he was at Delah and at the scene of the great battle of the South African campaign.

Soldiers seldom have any only attacks the national army. He said, "The soldiers are on their way home on a furlough. They are on the South African campaign."

"Well, the other side arranged the place of meeting," said the witness. "What do you mean by the other side?"

"Bert Franklin," was the response. "Is he the 'other side'?" sneered Rogers.

"I suppose so," said Lockwood. The cross-examination then shifted to the witness's friendship with C. E. White, alleged to have been dated for the stakeholder. Lockwood said White was in the Sheriff's office at the time he was a deputy and that he had known him about eight or ten years.

"Did you ever see Mr. Darrow before you saw him near the intersection of Third and Main streets?" asked Rogers, with another shift of scene.

"No sir," was the response. "Why did you go to the District Attorney's?"

"Because I believed it was a proper thing to do."

"You never told Franklin, your friend, that you were trying to trap him?" asked Rogers.

"No," replied Lockwood. "You thought he was a bad man, is that it?"

"Well, I thought he was in bad business."

WHO WAS "BIG MAN"?

Asking the witness about his interview with Franklin at the former's home near Covina, Rogers endeavored to develop the circumstance that while Lockwood had expected Darrow to come out to his house, the "big man" referred to in a telephone conversation was White.

"And you wanted to trap Darrow at your house?" asked the lawyer. "I had nothing to do with trapping anybody."

"Well, you got up the thing for the purpose, didn't you?"

"No sir, if Darrow had come out and money had been paid over to me, I suppose he would have been arrested."

"Didn't the District Attorney say to you that he would catch Mr. Darrow that night?"

"No, he did not."

"And you planned and wanted your friend White arrested?"

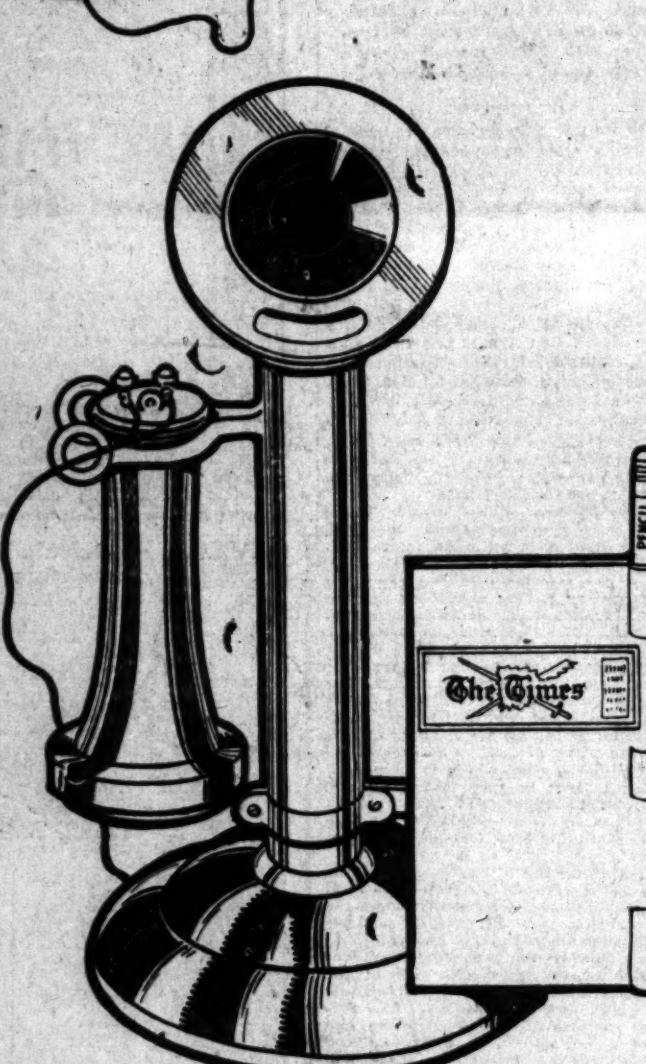

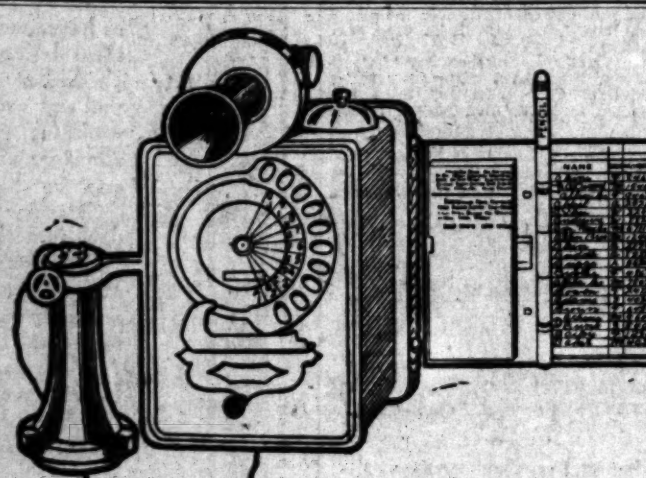

"I wanted to see crime stopped," Lockwood said Darrow's name had been mentioned by Franklin when there was some dispute over the money of safeguarding the balance of the bribe money that the witness said he was to get for voting for an acquittal in the McNamara case.

Little more of importance developed from Lockwood's testimony. Franklin followed him as a witness.

[Office of The Times, 22 S. Fair Oaks avenue.]

PASADENA, May 28.—The Pasadena water bond election will be held June 27. The City Council yesterday adopted a resolution authorizing the city to issue bonds to the amount of \$1,400,000, for the purpose of constructing a new water works.

The amount of bonds upon which voters of the city will be asked to express themselves is \$1,400,000, the figures recommended in the report of the Board of Trade Water Committee.

So far as possible, the polling places will be the same as those of the charter amendment election last week.

A campaign committee is soon to be organized.

The Council yesterday awarded the contract for the erection of the projected new garbage incinerator to Fred P. Smith of Portland, Ore., whose bid was \$46,000. The plant is to be what is designated a ninety-ton plant.

A standing appropriation of \$25 a month was made to help defray the expenses of maintaining an office for the Humane Society.

THIS A HEALTHY PLACE
A dinner and reception was given at the Y.M.C.A. building last night in honor of Dr. George J. Fisher, international physical director of the organization. There was a large attendance.

"I find that the health of young men on the Pacific Coast is better than in any other part of the country, taken all in all," said Dr. Fisher, last night. "I do not know that can give the reason for it. This just seems to be a very healthy place to live in. I have been especially impressed with the fact that few residents here wear glasses, whereas in the East I find one out of every six or seven persons wearing them."

"But there is one thing that is needed here, and that is more adequate bathing facilities. Swimming is one of the best of exercises. Physical training has much to do with the welfare of a people. The present tendency is too much to overeating and under-exercising. We of the Young Men's Christian Association are not concerned alone with what can be done for members of the organization in the way of physical exercise, but through the members we hope to, and have, been instrumental in getting playgrounds built and in many other matters of importance to the school children."

"The proposition now before your city to establish a municipal skating rink is a very healthy thing. It certainly should be done. Municipal swimming pools are of even greater value."

Clyde Wortman, a 15-year-old boy, who lives at No. 25 Champlain avenue, was arrested yesterday by Patrolman Griffin and is held at the City Jail on a charge of passing several counterfeit bills.

Some of those who have been accused of having victimized with worthless paper are the Berlin Dry Goods Company, the Houser Sporting Goods Company and the Crown Hardware Company.

In a circular letter sent to its members yesterday the Pasadena Merchants' Association asks that all places of business which have already announced their intention to close.

Mr. and Mrs. A. T. Dorman of No. 1177 North Catalina avenue, expect to leave tomorrow for Astoria, O., and in the hands of their son, Harry A. Dorman. They expect to be absent from the city for the month of the summer.

Paul B. Pope of Altadena, who has been absent for a year, and who recently brought to New York a consignment of date palms from the Sahara desert for transplanting to the Coachella Valley, is expected home next Sunday.

City Takes no Chance With Venice on Sewer Question—Aerial Trolley Scheme up in the Air.

SANTA MONICA, May 28.—Rather than take any chances upon running a municipal sewer main through a portion of Venice, the City Council has called a bond election for the purpose of raising funds with which to tunnel the Marine-street hill which drains the back-country. The city might have been avoided by a detour through Venice.

This method of making the improvement would have cost \$7000. As the hill is about ninety feet high, the tunnel will be expensive, and the estimated cost of the improvement is \$21,000. Santa Monica remembers the day when the two cities had unpleasant sewer relations, and the city will take no chances upon a repetition of quarrels, during which the trunk lines were amputated and the refuse of the beach cities was compelled to seek outlet upon the sandy shore.

LONG BEACH, May 28.—Strict enforcement of the provisions of all franchises by the City Council the demand made upon that body by the Chamber of Commerce and the latter's law committee is leaving nothing undone to remind the members of the council of their ante-election promises to this effect.

At present the chamber is engaged in an onslaught upon the Pacific Electric, insisting upon a five-cent fare within the city limits and universal transfers, both of which are provided for in the original franchises granted by the city. The Pacific Electric contends that the city limits applied only to the boundary lines as they existed when the franchises were granted, and that the transfer clause applies only to local cars and not to the interurban service, which, according to their state charter, runs from a given point to another given point.

STREW FLOWERS ON GRAVES.
Woman's Auxiliary Visits Soldiers' Home and Moks Services Commemorative.

SOLDIERS' HOME, May 28.—Woman's Auxiliary No. 18 of Los Angeles arrived in camp early this morning and, escorted by local arrangements, proceeded to the home to the home's cemetery, where they placed flowers on the graves of the encampment's veteran dead. The patriotic body remained for luncheon, which was provided for them in the home's dining hall, and in the afternoon adjourned to Markham Hall, where they united with the encampment in the beautiful memorial services of their order.

On invitation of the Chamber of Commerce of Venice, veterans of the United States Navy in the home will proceed in a body to the beach town to participate with citizens in the ceremony of strewing flowers on the waters of the Pacific in memory of the navy's veteran dead.

Senator Shanahan Presents His Side of Argument—Convention Working to Make Terms of Officers Two Years Instead of One, Preparing to Wind Up School Year.

POMONA, May 28.—The California Mothers' Congress opened auspiciously this morning in the First Methodist Church, where the first attendance of delegates from different parts of the State. The church was lavishly decorated in yellow and white, wild mustard and snow balls being effectively used with green pepper boughs and ivy.

The invocation was delivered by Rev. L. D. Van Arman and the greetings of the local Parent-Teachers' Association were delivered by Mrs. Warren P. Inman. Superintendent W. R. Murphy of the local schools also spoke words of greeting. Mrs. A. L. Hamilton responded for the congress and after a vocal solo by Miss Gibson, reports were heard.

The address of the president and the reports of the officers indicated good progress was made by the organization during the year.

At the afternoon session report of committees having charge of the various branches of the congress was given. Mrs. Charles Mayo sang a solo.

An important matter before the congress is the project to revise the State Constitution by a proposed amendment which will create two-year terms for all of the State officers in the place of one year.

Another matter which is being agitated is that of free text-books and Senator Shanahan will tomorrow deliver an address on the subject of the proposed bill for free text-books in this State.

Following the afternoon session the delegates then turned to the local Entertainment Committee and the Pomona Board of Trade in automobile rides about the city and valley.

The evening session was presided over by Mayor Matthews and there was an interesting illustrated lecture on "Motherhood in Art" by Mrs. John M. Edgar of Long Beach.

The importance of the congress and recognizing in this body one of the greatest forces for progress in the world, the many organizations conducted by women, this city has extended hearty welcome to the scores of delegates from California communities and is endeavoring to do everything possible for the pleasure and comfort of the visitors.

TAMED THE SHREW.
About 200 club and society women of this city enjoyed the outdoor production of the "Taming of the Shrew" given by the members of the Shakespeare Club on the beautiful grounds of Mr. and Mrs. Fred J. Smith on North San Antonio avenue yesterday afternoon.

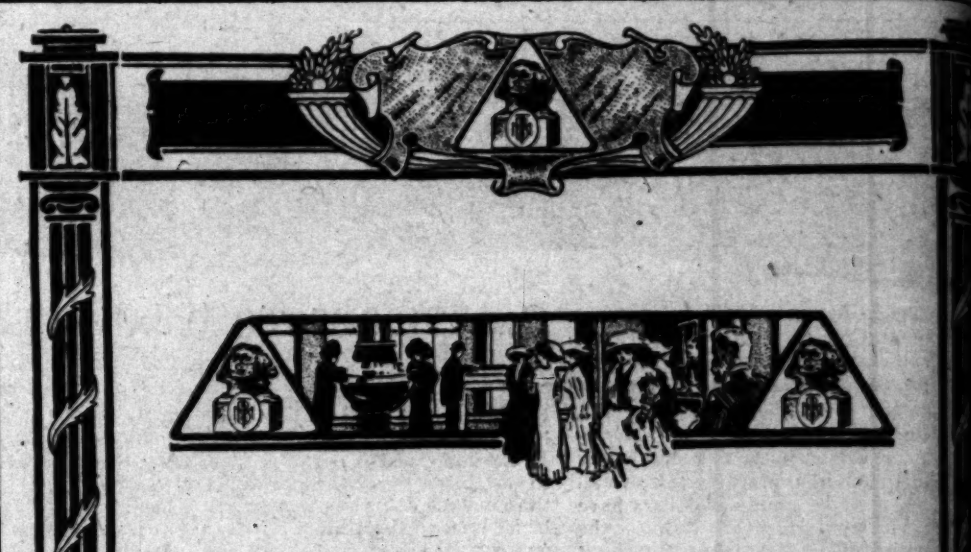

It was the club's annual historical event and was strictly a feminine affair, no men being privileged to see the acting of the play.

The trees, natural scenery and velvet lawns furnished an ideal stage setting and the production was lavishly and superbly staged.

The cast included Misses F. A. Averbeck, George Belcher, C. J. Fox, R. C. Hill, C. C. Zilles, Joseph Mulder, J. M. Power, W. W. Wire, Carlton Seaver, Arthur M. Dole, Misses Clara Neely, Mary Graham, Lillian Scott and Katherine Tanner. Following the play refreshments were served.

SCHOOL AFFAIRS.
The Board of Education has appointed Superintendent W. R. Murphy, Jr. in the place of Mr. C. P. Schwan a committee to investigate the work being done in the grade schools. Resignations were accepted from Mrs. M. L. Reynolds and Mrs. C. P. Schwan.

RECORDS MENACED.
During the heavy rain this afternoon there was considerable talk, and some private betting in the official stand at the course. Several enthusiastic fans are willing to wager that the speed average record of last year, 74.5 miles per hour, will be sent to better than 77 miles an hour provided Thursday is fairly cool. There are some willing to take even money that the average will be 78 or 79 miles an hour, while at present, without waiting to see what the weather is, some are betting that 77 miles will be the average of the winner.

SEALS HANDED BIG HARPOON.

Angels Blank Them Easily in
One-Sided Game.

Whang Two Pitchers for Total
of Sixteen Swats.

Pete Daley Gets Five Hits in
Five Times Up.

BY GREY OLIVER.

LOS ANGELES, May 19.—The Angels, who were expected to be a tough team, were easily blanked by the Seals in a one-sided game today. The Seals, who were expected to be a tough team, were easily blanked by the Angels in a one-sided game today. The Seals, who were expected to be a tough team, were easily blanked by the Angels in a one-sided game today.

Two of the Seals managed to get to third base on his own triple and the other one on a single and an error. Neither scored. Only three others reached second. There were but five hits and Toser counted out six men, five of these being in the last three innings. And yet some persons wonder why the Seals can't win some of their ball games. Toser was the reason yesterday.

He seemed to have everything and it was wild enough to give two bases and hit Mohler in the back with the ball. What the Angels did to Miller in two innings was enough and after they had whanged him for two doubles and had made two runs, Miller McCarty took a chance in the box.

In the next six innings the local team, including three doubles and a triple, and these were other reasons why the Seals got one more harpoon in the stomach of their dream about winning the pennant. The whole thing was a regular two-run fight from start to finish with the local slugging the heads off the pitchers in front of them. Pete Daley was the star, making six runs, less than six hits, two of these being doubles. Three of these drives went to left field, one to center and the other to right. All the curves looked alike to him. His first double scored the first run the Angels made in the other innings the swats behind him scored him.

It was too easy and with Toser pitching his last it was really over before it began. In the first, Miller passed Howard and Ivan ran to second on Berger's out at first. Miller tried to catch Howard off second, but made a bad throw and Howard ran to third. He scored in when Daley rapped a double to right.

In the second, Beles doubled to center and scored on Howard's hit to right. A double, center and Dillon's infield single made the third run in the third. A single, sacrifice, an out and a single got the fourth run in the fifth. Then the roof fell in on Mac in the seventh. Berger started this with a team and went to second on Daley's field single. Lober's sacrifice advanced both men, then Dillon singled and scored. Metcalf followed with a double against the score board and Dillon scored. Metcalf ran to third on the throw-in. Driscoll flew to center and Beles advanced a double to left. Metcalf scored. Toser then hit a single to left that sent Beles in and by this time the fans were cross-eyed watching the run chase each other over the plate.

ABLES SHOWS IN FINE FORM.

Holds Hogan's Tigers Down
to Three Scattered Hits.
Carson Rapped for Two Runs
in Sixth Inning.

[SPECIAL BY FEDERAL WIRELESS TELEGRAPH LINE]

LOS ANGELES TIMES BUREAU, San Francisco, May 19.—[Exclusive Dispatch.] After that first inning of the game between the Oaks and the Vernon Tigers today it was altogether in favor of the Oaks. Three to nothing was the score, and the way Harry Aables dashed 'em up the Vernons were mighty lucky to get as many as three hits, not to say anything of runs.

One safe hit and two that were scratchy were all the Vernons gathered off the happy-go-lucky quite that sort of a game, although outside of the sixth, in which the Oaks collected a couple of failures, he was not hit to any extent. A single and two doubles came in that eventful session, and they were quite enough to give the Oaks two runs.

Later Carson was taken out of the game that Harry Hogan might come to the bat and Dolly Gray, who finished up the last inning, allowed the Oaks still another run. For four innings so far as Oakland was concerned, and for five with the Vernons, it was a listless game.

The first break came when Cook doubled to left field in the fifth, and after that the drive was somewhat more numerous. Both in the fourth and fifth the Oaks missed chances to send runners across the pen, and it was not until later that the hits were properly bunched to produce runs.

The Tigers were not so lucky. They never had a man farther than second in the eighth and again in the ninth, when Carville running for Kane, was on third with two down, and even a rally at that stage of the proceedings would not have done much against the Oakland lead.

Both teams were shifted around more or less. Barries came in left field for the Tigers, with Kane in center field, but later McDonnell went to left field, and Brown finished out as a pitcher. It was a monotonous game in a way until fully half over.

Then there were things stirring. Hoffman reached second in the fourth on a poor throw by Patterson to Carson, who was covering the bag. Cook was forced at third when Bud Shurtz grounded to second. Brown walked and stole, but Aables fanned, and with two down Toser laid an easy round to the pitcher's box and was thrown out at first. Toser's hit was a sacrifice, and the Oaks lost no time in their half of the game. In the fifth, Hoffman drove one to right and Zacher fled to left. Claire Patterson rapped to center for two sacks, and the Oakland pitcher perched on third Helling repeated with another center-field double that sent Hoffman home.

New York May 28.—Jack Britton, the lightweight, is now on his way here from San Francisco by way of Los Angeles, New Orleans and Chicago, according to a letter received from his manager Jack Costello. Britton will not linger along the route, but will come on to New York in a few days. He declares he is going to camp here until he gets matches with either McFarland, Wolgast, Brown, Murphy, Welsh or any other lightweight of distinction. It is understood that the Garden Athletic Club is planning to stage Britton with either McFarland, Wolgast or Leach Cross, as soon as he arrives in town.
